

Pat Tern and their pals are meeting up to skateboard at their school. They planned their routes paying close attention to street signs along the way. To solve the puzzle, put the streets in four groups of four and add up the addresses in each group. Convert the sum numbers to letters using the code A=1...Z=26. Anagram the letters to get your answer. Enter the answer to get this puzzle's clue location. Go there to find a clue for the region's meta-puzzle. When skateboarding, be sure to wear a helmet that fits.

Pat Tern

Helmet Check

Do the 2-2-2 test to check for a good fit:

- 2 fingers above your eyebrows for the front part of your helmet.
- 2 fingers for the straps to make a "V" underneath your ears.
- 2 fingers between the chin strap and your chin.
