Mo Zaic and his pals went for a walk along the Potomac river. During a picnic break, they created this puzzle for you. Each sunflower seed needs a drop of water. Figure out where they go. Add a drop next to, below, or above each seed. Drops can not be next to each other even diagonally. The numbers in the rows and columns tell you how many drops are in each row and column. The letters covered by the drops will be your answer. Enter your answer to find the clue location. Go there to get the clue and keep track of it for the final puzzle.
