

PRIDE Puzzle Hunt

2

Sue Doku has created this puzzle for you to solve. Use the symbols in LGBTQ+ to fill in the grid. Each symbol can only be used once per row, column, and bolded region. When you've completed the grid, match the symbols to the colored shapes. Fill in the matching shapes below the grid. Convert the letters to numbers using A=1...Z=26. Do the calculations. Convert each line's total number back to letters to get this puzzle's answer.
